3. Start Web Management

The Managed Switch provides a built-in browser interface. You can manage it remotely by having a remote host with Web browser, such as Microsoft Internet Explorer, Netscape Navigator or Mozilla Firefox.

The following shows how to startup the **Web Management** of the FGSW Managed Switch, please note the Managed Switch is configured through an Ethernet connection, make sure the manager PC must be set on the same **IP subnet address**.

For example, the default IP address of the Switch is **192.168.0.100** (the factory-default IP address), then the manager PC should be set at 192.168.0.x (where x is a number between 1 and 254, except 100), and the default subnet mask is 255.255.255.0.

Login the Managed Switch

1. Use Internet Explorer 6.0 or above Web browser, enter IP address **http://192.168.0.100** (the factory-default IP address or that you have just changed in console) to access the Web interface.
2. When the following dialog box appears, please enter the default user name “**admin**” and password “**admin**”. The login screen in Figure 3-1 appears.

Default IP Address: **192.168.0.100**

Default User name: **admin**

Default Password: **admin**

The following screen based on FGSW-2620VM, for FGSW-2624SF and FGSW-2620PVM, the display will be the same to FGSW-2620VM.

4. Terminal Setup (FGSW-2620PVM)

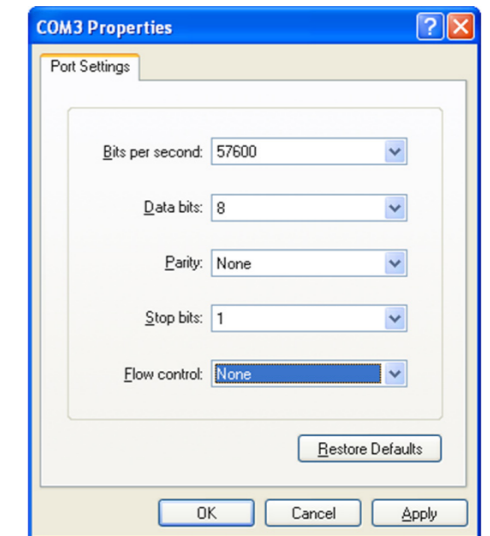

To configure the system, connect a serial cable to a **COM** port on a PC or notebook computer and to serial (console) port of the FGSW-2620PVM. The console port of the Managed Switch is DCE already, so that you can connect the console port directly through PC without the need of Null Modem.

A terminal program is required to make the software connection to the FGSW-2620PVM. Windows’ **Hyper Terminal** program may be a good choice. The Hyper Terminal can be accessed from the **Start** menu.

1. Click **START**, then **Programs, Accessories** and then **Hyper Terminal**.
2. When the following screen appears, make sure that the COM port should be configured as:

- ◆ Baud : 57600
- ◆ Parity : None
- ◆ Data bits : 8
- ◆ Stop bits : 1
- ◆ Flow Control : None

- 8 -

5. Logon to the Console (FGSW-2620PVM)

Once the terminal has connected to the device, power on the FGSW-2620PVM, the terminal will display that it is running testing procedures.

Then, the following message asks the login user name and password. The factory default password as following and the login screen in Figure 5-1 appears.

Username: **admin**
Password: **admin**
