Quick Installation Guide
VIP-1010PT

High-definition PoE IP Phone

VERIFY THE CONTENTS INSIDE THE PACKAGE BOX

The package should contain the following items plus VIP-1010PT. If any item is missing or damaged, please contact the seller immediately.
| Quick Guide	Handset	Handset cord	RJ45 Cable	Stand

Step 1. Handset Connection

Plug one end of the handset cord into the handset and the other end into the handset jack

Step 2. Connecting Power System

The VIP-1010PT can be powered either by its external AC/DC adapter or by connecting to an IEEE802.3af/at PSE device such as 802.3af injector/hub or 802.3af/at PoE switch. Once the VIP-1010PT is powered, the LCD screen will prompt for POST.

NOTE : 1. This unit does not include the 5V/1A power adapter.
2. Only Internet port supports PoE.

Step 3. Connecting Network
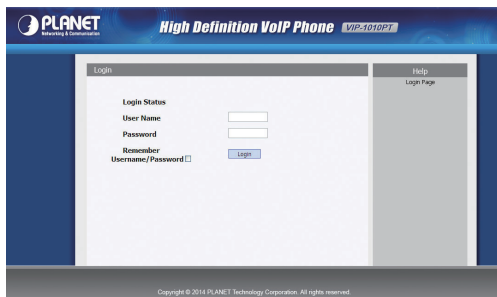

PoE

Internet

PC

PoE Switch

IP PBX

Step 4. Computer Network Setup

Set your computer's IP address to 192.168.0.x, which x is a number between 2 and 254 (except 1 where is being used for the phone by default). If you don't know how to do this, please ask your network administrator.
Connecting your PC to the VIP-1010PT PC port

PoE

PC Internet

5V

PC   Inte

Step 5. Login Prompt

Use Web browser (Internet Explorer 8.0 or above) to connect to 192.168.0.1 (type this address in the address bar of Web browser). You'll be prompted to input user name and password: **admin and 123**
