Exceptional Image Quality

Together with powerful image processing attributes like Wide Dynamic Range and 3D Digital Noise Reduction (3DNR) technology, the ICA-4200V is able to filter the intense backlight surrounding a subject and remove noises from video signal. It brings an extremely clear and exquisite picture quality even under any challenging lighting conditions.

Passive InfraRed (PIR) Sensor

When people pass by or in an emergency situation, the built-in PIR motion detection sensor in the ICA-4200V will "detect" and start recording automatically. It is able to detect movement as far as 6 meters away. When motion is detected in the specified areas, the additional function of alarm notification can send an e-mail alert or captured images via FTP upload to a designated storage server.

Camera Tampering and Audio Detection

Provided with three individually configurable motion detection zones, the ICA-4200V can record video or trigger alarms and alerts when motion is detected in a designated area. Also, its built-in microphone enables the system to record the sound that is within camera's surveillance range. The system will trigger the audio detection alarm when sounds like screams, glass breaking, etc. are detected.

Advanced Event Management

To enhance surveillance flexibility and event management capabilities, the ICA-4200V supports a number of advanced features including auto-iris to avoid over exposure, AV out to perform the two-way audio function.

Flexible Installation and Power Functionality

The ICA-4200V, incorporating IEEE 802.3af Power over Ethernet standard, is able to be powered via the network cable from a PoE power sourcing equipment such as PoE switch and PoE injector. It thus eliminates the need for extra power cables and reduces installation costs while increases the deployment flexibility. The ICA-4200V is ONVIF compliant and therefore interoperable with other manufacturers' products. It also includes 64-CH central management software for ease of maintenance and remote monitoring. The ICA-4200V is indisputably the top choice for reliable and high performance surveillance.

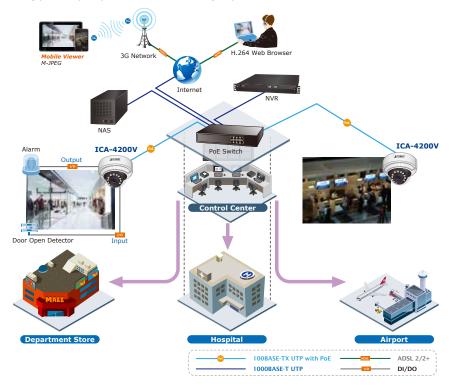

Applications

PLANET ICA-4200V can perform in various surveillance applications. With high-resolution design, it can capture clear images and is perfect for identifying objects and persons. Moreover, the ICA-4200V supports 802.3af PoE interface, and facilitates the indoor surveillance applications without worrying the electric source.

Its Save-to-NAS and Save-to-SD card makes you easy to save your data. Besides, NVR and Web UI management make you easy to do the configuration and live viewing. Moreover, viewing your baby on your smart phone would give you a peace of mind.

With so many features offered, the ICA-4200V no doubt is your best choice for indoor surveillance solution.
