The guide contains the basic information you need to quickly set up the camera.

For detailed information on installations or operations, please refer to the user manual on PLANET web site (*http://planet.com.tw/en/support/download.php*).

Step 1: Unpack the Camera

Check the camera package and make sure all the items are present. The complete package list is shown in the user manual in Chapter 1.

Step 3: Running Installer Utility to Locate the IP Camera

- Download camera search tool: Smart Discovery Lite utility from the Download Center of our website (http://planet.com.tw/ en/support/download.php?view=8184&key=ICA-E#list).
- Run Smart Discovery Lite utility to start searching for cameras.
 - After the Smart Discovery Lite utility is launched, all ICA-E camera series found in your local area network will be displayed.

If IE9 or higher version browser is used, it is suggested that the PLANET camera web link should be added as a trusted site.

Appendix A: Default Setting

Default DHCP Client	On		
Default IP Address	192.168.0.20 – if DHCP does not exist in the network		
Default Login User Name	admin		
Default Login Password	admin		
Search Tools	Smart Discovery Lite		

Step 4: Opening the Web Management

For full functionality, it is recommended to use Microsoft IE browser 11.

Please enter "admin" as the default user name and password, as shown below:

Login					
Account Password Language	English V				
Login	Reset				

When the device is logged on for the first time, the browser will prompt a message; please click "Allow" to install controls.

This webpage wants to run the following add-on: 'SStreamVideo.cab' from 'PLANET Technology Corporation'. What's the risk? Allow 🔻

Quick Installation Guide
