

1. Introduction

Thank you for purchasing PLANET H.265 Smart IR PoE IP Camera. The **"ICA-x80 series"** is used as an alternative name in this Quick Installation Guide. The following is the ICA-x80 series:

ICA-3280	H.265 1080p Smart IR Bullet IP Camera				
ICA-4280	H.265 1080p Smart IR Dome IP Camera				
ICA-A3280	H.265 1080p Smart IR Bullet IP Camera with Artificial Intelligence				
ICA-A4280	H.265 1080p Smart IR Dome IP Camera with Artificial Intelligence				
ICA-M3580P	H.265 5 Mega-pixel Smart IR Bullet IP Camera with Remote Focus and Zoom				
ICA-M4580P	H.265 5 Mega-pixel Smart IR Dome IP Camera with Remote Focus and Zoom				

- 1 -

It is recommended to use Internet Explorer 8.0 or above to access the ICA-x80 series. If the Web interface of the ICA-x80 series is not accessible, please turn off the anti-virus software or firewall and then try it again.

4. Starting Web Management

The following shows how to start up the Web Management of the ICA-x80 series. Note the ICA-x80 series is configured through an Ethernet connection. Please make sure the manager PC must be set to the same IP subnet address.

For example, the ICA-x80 series default network type is **DHCP Client**; to search the current IP address of the ICA-x80 series, follow the procedure below:

2. Package Contents

Open the box of the ICA-x80 series and carefully unpack it. The box should contain the following items:

- The IP Camera x 1
- Quick Installation Guide x 1
- Screw Package x 1
- Waterproof Connector Package x 1
- Drill Template x 1

If any item is found missing or damaged, please contact your local reseller for replacement.

3. Requirements

- Workstations running Windows XP/2003/2008/Vista/7/8/10, MAC OS X or later, Linux, UNIX, or other platforms are compatible with TCP/IP protocols.
- Workstations are installed with Ethernet NIC (Network Interface Card).
- Ethernet Port Connection
 - Network cables -- Use standard network (UTP) cables with RJ45 connectors.
 - > The above PC is installed with **Web browser**.

– 2 –

- 1. Download the **"PLANET Search Tools"** utility from the following PLANET website link: <u>http://www.planet.com.tw/en/support/down</u> <u>loads?method=keyword&keyword=PLANET+Search+Tools&view=</u> <u>6#list</u>
- 2. Install the "PLANET Search Tools" utility.
- 3. After the camera utility is launched, all cameras found in your local area network will be displayed.
- 4. The existing ICA-x80 series in the local network.
- 5. Search the ICA-x80 series in the network.
- 6. Modify the IP parameters of the selected ICA-x80 series.
- 7. Select the ICA-x80 series you want to configure and double-click on it.
- 8. You will be connected to the ICA-x80 series via web browser automatically.

Now, you can use the Web management interface to continue the ICA-x80 series management.

Please refer to the user's manual for more.

5. Recovering Back to Default Configuration

■ IP Address has been changed or admin password has been forgotten -

To reset the network type to the default "DHCP Client" with IP address "192.168.0.20" or reset the login password to default value, press the hardware-based reset button for about 10 seconds. After the ICA-x80 series is rebooted, you can log in the management Web interface within the factory default mode.
